

EU Declaration of Conformity

1. Declaration

We, the manufacturer, GOODDATA LABS SL, Calle Berlin 16, Bloque 4, 2-A, Alcorcon, 28922, Spain, declare under our sole responsibility that the product to which this declaration relates is in conformity with the essential requirements and other relevant provisions of the applicable EU directives and harmonised standards listed below.

2. Product Information

Product Name: SidecarTridge TOS Emulator Mega ST Kit

Model: SidecarTridge TOS Emulator Mega ST Kit v4 (Rev.4.0.0) — TOS Emulator module + 256KB Decoder Board

Batch/Series: SidecarTridge TOS Emulator Mega ST Kit Revision 4

Revision: REV4.0.0

3. Object of the declaration

Combined kit for Atari Mega ST computers comprising two internal sub-assemblies installed together in the TOS ROM area of the Mega ST motherboard: (a) the SidecarTridge TOS Emulator (Mega ST Edition, v4, Rev.4.0.0), a programmable TOS ROM emulator with 16 MB of onboard flash driven by a Raspberry RP2350 microcontroller and a USB-C connector for local file transfer only (no wireless or radio functionality), and (b) the SidecarTridge 256KB Decoder Board (Rev.1.1.0), a passive address-decoder sub-assembly that provides the decoding required by the Mega ST ROM sockets for the TOS Emulator to operate correctly. Both sub-assemblies are powered exclusively from the host system via the ROM socket, operate below 50 V DC, and together form a single internal installation.

4. The object of the declaration described above is in conformity with the relevant Union harmonisation legislation:

Directive	Description
2014/30/EU	Electromagnetic Compatibility (EMC) Directive
2011/65/EU + (EU) 2015/863	Restriction of Hazardous Substances Directive (RoHS 3)

5. References to the relevant harmonised standards used:

Standard	Description
EN IEC 61000-6-1:2019	Electromagnetic compatibility (EMC) - Generic immunity standard for residential, commercial and light-industrial environments
EN IEC 61000-6-3:2021	Electromagnetic compatibility (EMC) - Generic emission standard for residential, commercial and light-industrial environments
EN IEC 63000:2018	Technical documentation for the assessment of electrical and electronic products with respect to the restriction of hazardous substances

6. Additional Information

This product is a kit of two internal sub-assemblies (SidecarTridge TOS Emulator module and SidecarTridge 256KB Decoder Board) intended for combined installation in the TOS ROM sockets of an Atari Mega ST motherboard. The kit is powered exclusively from the host system through the ROM socket, operates below 50 V DC, contains no radio transmitter, no intentional RF radiator, and no wireless communication functionality. The onboard USB-C connector on the TOS Emulator sub-assembly is used for local firmware loading and file transfer only. Directive 2014/35/EU (Low Voltage Directive) does not apply. Each sub-assembly is also covered by its own individual Declaration of Conformity (SidecarTridge TOS Emulator Mega ST Edition, Rev.4.0.0 and SidecarTridge 256KB Decoder Board, Rev.1.1.0); this declaration covers the two sub-assemblies as placed on the market together as a single kit.
