

UK DECLARATION OF CONFORMITY (UKCA)

1. Declaration

We, the manufacturer, GOODDATA LABS SL, Calle Berlin 16, Bloque 4, 2-A, Alcorcon, 28922, Spain, declare under our sole responsibility that the product to which this declaration relates is in conformity with the essential requirements and other relevant provisions of the applicable UK statutory instruments and designated standards listed below.

2. Product Information

Product Name: ST2VGA Enhanced

Model: ST2VGA Enhanced V1

Batch/Series: ST2VGA Enhanced Revision 1

Revision: REV1.0.0

3. Object of the declaration

Active VGA adapter for Atari ST, STE, Mega ST and Mega STE computers. The standalone external dongle connects to the Atari monitor port, amplifies and filters the analog RGB video, and drives a multisync VGA display via a DE-15 connector while preserving the original Atari scan frequencies (approximately 15 kHz horizontal sync in colour modes and 31 kHz in monochrome). Audio is routed to a 3.5 mm jack. The device is powered externally at +5 V DC through a Micro-USB connector; the USB connector is used for power only and carries no data.

4. The object of the declaration described above is in conformity with the relevant UK statutory instruments:

Statutory Instrument	Description
S.I. 2016/1091	Electromagnetic Compatibility Regulations 2016
S.I. 2012/3032	Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012 (UK RoHS)

5. References to the relevant designated standards used:

Standard	Description
BS EN IEC 61000-6-1:2019	Electromagnetic compatibility (EMC) - Generic immunity standard for residential, commercial and light-industrial environments
BS EN IEC 61000-6-3:2021	Electromagnetic compatibility (EMC) - Generic emission standard for residential, commercial and light-industrial environments
BS EN IEC 63000:2018	Technical documentation for the assessment of electrical and electronic products with respect to the restriction of hazardous substances

6. Additional Information

This product is a standalone external adapter (dongle) intended to be connected between the monitor port of an Atari ST, STE, Mega ST or Mega STE computer and a compatible multisync VGA display. Power is supplied externally at +5 V DC via a Micro-USB connector; the USB connector provides power only and carries no data. The device operates below 50 V DC and is not mains-powered — the Electrical Equipment (Safety) Regulations 2016 do not apply. The device contains no radio transmitter, no intentional RF radiator, and no wireless communication functionality. The external +5 V DC supply (e.g. USB power adapter) is outside the scope of this declaration and must itself bear the UKCA mark.

7. Technical documentation

Technical documentation is held by GOODDATA LABS SL.
